About Me

Recent IT graduate passionate about frontend development and automation testing. Strong foundation in React, JavaScript, and AI-assisted tools. Detail-oriented, fast learner, and eager to contribute to innovative products in a collaborative environment.

Skills

Technical Skills

- **Languages:** JavaScript, TypeScript, Python, Java, C, Node.js
- **Frameworks & Libraries:** ReactJS, React Native, Cypress, Selenium
- **Tools & Platforms:** Postman, GitHub, GitHub Actions, Jenkins
- **Testing & Reporting** (Familiar with): Mocha, Jest, Newman
- **Project Management & UI/UX:** Figma, Jira, Trello, Notion
- **Databases & Tools:** Basic SQL, MongoDB, Chrome DevTools, AI-Assisted Development

Soft Skills & Others

- **English:** Good reading & writing, basic verbal communication
- **Work Skills:** Teamwork, Problem Solving, Self-Learning

Projects

Intelligent Pomelo AgriSolutions (Website) 01/2025 - 05/2025

Role: Frontend Developer & UI/UX Designer (Team: 4 people)

- Developed a web platform for pomelo farm management with AI-driven pest detection and QR code-based plant tracking
- Built CRUD interfaces for process, plan, worklog management and integrated PayOS for subscription package purchases to unlock farm management features.
- Designed and implemented real-time notification UI using WebSocket and a farm owner dashboard with Chart.js for operation reports.

Intelligent Pomelo AgriSolutions (Mobile App) 01/2025 - 05/2025

Role: Frontend Developer & UI/UX Designer (Team: 4 people)

- Built a mobile app from scratch for farm management, featuring AI pest detection via Azure Custom Vision API and QR code plant management.
- Designed intuitive Calendar View for work schedules and real-time notification UI.
- Implemented features for worklog action, harvest logging, and AI result reporting, ensuring seamless API integration and user experience.

Coffee - E-commerce Platform 08/2024 - 10/2024

Role: UI/UX Designer, Frontend & Backend Developer (Team: 2 people)

- Built an e-commerce platform for a real coffee business, enabling custom coffee blend orders.
- Integrated PayOS for secure payment processing and designed responsive UI.

Education

FPT University

- Bachelor of Software Engineering
- 2021-2025
- GPA: 7.85 / 10 - Graduated with "Good"

Certification

FPT Software

- BootCamp Frontend Conquer ReactJS Technology
- Oct 2023
